

EXHIBIT 1

BEYER PROJECTS

Contract between BEYER Projects and John Baldessari, 2013

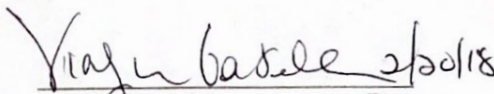

BEYER Projects will fabricate and sell a project entitled: *Camel (Albino) Contemplating Needle (Large)*.

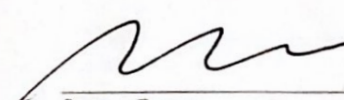

Approximate dimensions of the camel are 107 x 32 x 106 inches and the needle has dimensions of 126 x 5 x 5 inches. The camel will be cast in carbon fiber epoxy composite with a stainless steel supporting armature. It will be covered in acrylic and painted with a matte white finish. The needle is mirror-polished aluminum. *Camel (Albino) Contemplating Needle (Large)* will be produced in an edition of 3. Additionally, there will be three artist's proofs, one will be the property of John Baldessari, the second will belong to BEYER Projects, and the third will be for sale.

BEYER Projects and Baldessari will split the profits from the sale of the edition of 3 sculptures and one proof 50/50 after production costs have been paid. BEYER will be responsible for the initial payment of these production costs, to include research, design, fabrication, shipping, and storage. We will amortize the production costs so that cost per individual piece will be known.

We expect the cost of production to be approximately \$65,000 for each of the 6 sculptures. Target sale price will be \$600,000. All advertising and administrative costs are the responsibility of BEYER and are not included in production costs.

BEYER PROJECTS

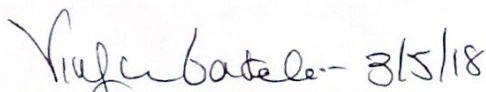

Contract between BEYER Projects and John Baldessari, 2007

BEYER Projects will fabricate and sell a project entitled: *Beethoven's Trumpet (with Ear)*.

Approximate dimensions of each sculpture are 73 x 72 x 105 inches. The ear and the trumpet will be carved in high-density foam and covered with high-impact resin. The finish of the ear will be matte white, while the trumpet will be coated in liquid bronze. All electronics and wall-hanging devices will be included with each sculpture, as well as segments of Beethoven's Late String Quartets recorded onto a playback unit. It will be produced in an edition of 6. Additionally, there will be three proofs, one of which will be the property of John Baldessari, the second proof will belong to BEYER Projects, and the third proof will be sold.

BEYER Projects and Baldessari will split the profits from the sale of the edition of 6 sculptures and one proof 50/50 after production costs have been paid. BEYER will be responsible for the initial payment of these production costs, to include research, design, fabrication, shipping, and storage. We will amortize the production costs so that cost per individual piece will be known.

We expect the cost of production to be approximately \$50,000 for each of the 9 sculptures. Target sale price will be \$300,000. All advertising and administrative costs are the responsibility of BEYER and are not included in production costs.

BEYER PROJECTS

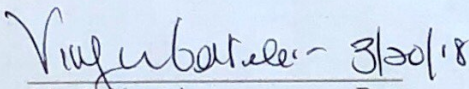

Contract between BEYER Projects and John Baldessari, 2009

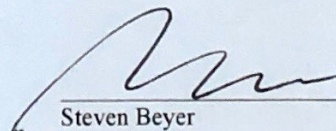

BEYER Projects will fabricate and sell a project entitled: *Ear Sofa and Nose Sconces*.

Approximate dimensions of each ear sofa are 54 x 108 x 54 inches and each nose scone has dimensions of 36 x 18 x 18 inches. The sofa and sconces will be carved in high-density foam and rotocast in polyurethane. The interior has wood supports and the sculptures will be covered with high-impact resin, memory foam and matte white synthetic rubber. *Ear Sofa and Nose Sconces* will be produced in an edition of 6. Additionally, there will be two proofs, one of which will be the property of John Baldessari, while the second proof will belong to BEYER Projects.

BEYER Projects and Baldessari will split the profits from the sale of the edition of 6 sculptures 50/50 after production costs have been paid. BEYER will be responsible for the initial payment of these production costs, to include research, design, fabrication, shipping, and storage. We will amortize the production costs so that cost per individual piece will be known.

We expect the cost of production to be approximately \$40,000 for each of the 8 sculptures. Target sale price will be \$250,000. All advertising and administrative costs are the responsibility of BEYER and are not included in production costs.

BEYER PROJECTS

Contract between BEYER Projects and John Baldessari, 2009

BEYER Projects will fabricate and sell a project entitled: *Brain/Cloud (Two Views): with Palm Tree and Seascape*.

Approximate dimensions of the sculpture are 111 ½ x 159 ½ x 54 inches. The brain cloud will be carved in high-density foam and covered with high-impact resin and painted flat white. The brain cloud will be fabricated in five sections, with an aluminum frame mounted behind the piece for hanging. The installation will also include a video camera, projector and inkjet prints on vinyl. It will be produced as a single unique sculpture.

BEYER Projects and Baldessari will split the profits from the sale of the installation 50/50 after production costs have been paid. BEYER will be responsible for the initial payment of these production costs, to include research, design, fabrication, shipping, and storage. We expect the cost of production to be approximately \$95,000. Target sale price will be \$1,200,000. All advertising and administrative costs are the responsibility of BEYER and are not included in production costs.

BEYER PROJECTS

Contract between BEYER Projects and John Baldessari, 2016

BEYER Projects will fabricate and sell a project entitled: *Fake Carrot*.

Approximate dimensions of the sculpture are 96 x 36 x 24 inches. The carrot will be cast in polyurethane with steel supports and a painted surface. Painted epoxy resin leaves will be attached along with stainless steel rope and mounting devices. *Fake Carrot* will be produced in an edition of 6. Additionally, there will be ~~two~~ proofs, one of which will be the property of John Baldessari, while the second proof will belong to BEYER Projects.

BEYER Projects and Baldessari will split the profits from the sale of the edition of 6 sculptures 50/50 after production costs have been paid. BEYER will be responsible for the initial payment of these production costs, to include research, design, fabrication, shipping, and storage. We will amortize the production costs so that cost per individual piece will be known.

We expect the cost of production to be approximately \$48,000 for each of the 8 sculptures. Target sale price will be \$300,000. All advertising and administrative costs are the responsibility of BEYER and are not included in production costs.

BEYER PROJECTS

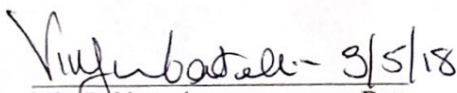

Contract between BEYER Projects and John Baldessari, 2017

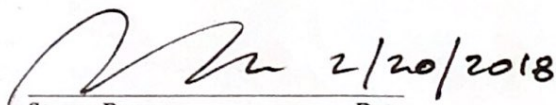

BEYER Projects will fabricate and sell a project entitled: *Lead Cloud*.

Approximate dimensions of each sculpture are 16 ½ x 22 x 5 inches. The sculpture will consist of a painted lead panel with an aluminum core. It will be mounted with stainless steel hardware, including a wall cleat, a ceiling hook and a pulley system. *Lead Cloud* will be produced in an edition of 25. Additionally, there will be six proofs, three of which will be the property of John Baldessari, while the other three proofs will belong to BEYER Projects.

BEYER Projects and Baldessari will split the profits from the sale of the edition of 25 sculptures 50/50 after production costs have been paid. BEYER will be responsible for the initial payment of these production costs, to include research, design, fabrication, shipping, and storage. We will amortize the production costs so that cost per individual piece will be known.

We expect the cost of production to be approximately \$10,000 for each of the 31 sculptures. Target sale price will be \$40,000. All advertising and administrative costs are the responsibility of BEYER and are not included in production costs.

BEYER PROJECTS

Contract between BEYER Projects and John Baldessari, 2011

BEYER Projects will fabricate and sell a project entitled: *Brain Fountain*.

Approximate dimensions of each brain are 15 x 22 x 16 feet, with the surrounding picket fence of variable dimensions. The installation will consist of a large brain, which is also a functioning fountain. A white picket fence will surround the brain. *Brain Fountain* will be a unique sculpture. Production requirements will be determined when a location has been finalized, as site-specific details will need to be taken into account.

BEYER Projects and Baldessari will split the profits from the sale of the installation 50/50 after production costs have been paid. BEYER will be responsible for the initial payment of these production costs, to include research, design, fabrication, shipping, and storage. Fabrication will only begin when an installation location is determined.

We expect the cost of production to be approximately \$1,500,000. Target sale price will be \$3,500,000. All advertising and administrative costs are the responsibility of BEYER and are not included in production costs.
